3-Tier Folding Bike Locker

Key Features of the 3-Tier Folding Bike Locker

Compact Design

We looked at all the compact folding bikes on the market and designed our 3-tier locker around fitting most of them, including the popular Brompton. If you have bigger folding bikes then we have our 2-tier folding bike locker that comfortably takes 99% of all folding bikes.

Security in Mind

We haven't just taken a normal locker and resized it, we designed this with security in mind from the ground up. The door is double skinned and features a blanking strip so it can't be easily forced open. We've also increased the thickness of steel sheets to make the column more robust. We manufacture the cams in house to a high specification and are able to withstand much more force.

Technical Specification

| | |
|-------------|------------------------------|
| Column | H 2100mm / W 400mm / D 650mm |
| Compartment | H 600mm / W 320mm / D 600mm |
| Colour | Any RAL colour |
| Materials | 1.5mm pre galv steel |
| Fixing | Floor and side |
| Locking | Key with cam lock / keypad |
| Options | Custom laser cut logos |

Designed & Made in Britain

Our folding bike lockers are manufactured on the south coast. We can change the colour to suite you specific site, adding any custom logos you might require.

Locking Options

We supply a high security cam lock as standard that can be master keyed if required. We can also supply a smart keypad with dual functionality for shared or assigned use operated by user pin or Mobile ID.
